Military conflict in the Ukraine

Dear customers,

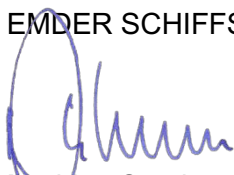

with regard to the military conflict in the Ukraine, and due to economic sanctions imposed by the European Union, the U. S. and the Western Allies against Russia, we are expecting a difficult supply situation in the ports in the affected areas.

We kindly ask you to contact us immediately if a substantial risk for you exists or might be considered likely to occur from this situation.

For the time being, we are constantly observing the latest developments.

Kind regards

EMDER SCHIFFSAUSRÜSTUNG
